THE MALAYSIAN TECHNICAL COOPERATION PROGRAM (MTCP) was first initiated at the First Commonwealth Heads of Government Regional Meeting (CHOGRM) for Asia Pacific Region in Sydney in February 1978. It was officially launched on 7 September 1980 at the 2nd CHOGRM in New Delhi, India, to signify Malaysia's commitment to South-South Cooperation, in particular Technical Cooperation among Developing Countries (TCDC).

In line with the spirit of South-South Cooperation, Malaysia through the MTCP shares its development experiences and expertise with other developing countries. The MTCP was first formulated based on the belief that the development of a country depends on the quality of its human resources. The programme forms part of the commitment of the Malaysian Government towards the promotion of technical cooperation among developing countries, strengthening of regional and sub-regional cooperation, as well as nurturing collective self-reliance among developing countries.

The MTCP emphasizes the development of human resources through the provision of training in various areas which are essential for a country's development such as public administration, good governance, health services, education, sustainable development, agriculture, poverty alleviation, investment promotion, ICT and banking. Since its inception in 1980, more than 33,000 participants from 144 recipient countries have benefited from the various programmes offered under the MTCP. More information at MTCP website: www.mtcp.kln.gov.my

The Objectives of MTCP are:

- To share Malaysia's development experience with other developing countries;
- To strengthen bilateral ties with developing countries;
- To encourage and promote South-South Cooperation; and
- To encourage and promote technical cooperation within developing countries

ABOUT CIDB HOLDINGS SDN BHD

CIDB HOLDINGS (CIDBH) corporate standing as a fully owned subsidiary of the Construction Industry Development Board Malaysia (CIDB Malaysia) represents one of the strategic platforms for CIDB Malaysia to fulfill its role as a regulatory body, and custodian of the Malaysian Construction Industry. Since its inception on 1997, CIDBH has effectively orchestrated the emerging forms of its corporate functional roles in the following areas:

- Helping to raise the levels of quality output and productivity in the Malaysian Construction Industry via undertaking of construction workforce training, skills assessment and evaluation programs;
- Fulfilling its role as a program enabler to spearhead various CIDB-led "Going Global" initiatives.

COURSE OVERVIEW

This specific training program on Mixed Development will give exposure to foreign participants on the concept of mixed development and sample of such development in Malaysia. Mixed-use development is a type of urban development that integrate residential, commercial, cultural, institutional, or entertainment purposes, where those functions are functionally integrated and have the end user's convenience and requirement in mind.

Through the course, the Malaysian government expertise, developers or service providers will share their experiences and best practices in development phase that includes planning and designing, construction and project management and relevant facility management activities. In addition, the experts also will share on the maintenance of mixed development projects including transit-oriented development (TOD).

The participants will have the opportunity to visit and study the establishment of the Administration of Malaysian Government at Putrajaya, Setia Alam, Bandar Sunway and KL Sentral – a sample of transit-oriented development (TOD) located in the Klang Valley

COURSE OBJECTIVES

- To share and train senior officials and professionals from relevant foreign ministries / government departments / agencies in the integrated township development concept
- To showcase Malaysia's capacity and capability by way of practice in the mixed development in construction sector

COURSE CONTENT

- Planning, coordinating and technical advice for mixed development projects and transit-oriented development (TOD)
- Preparation of urban and city master plans
- Mass Housing Project Management
- Preparation of Environment Impact Assessment (EIA)
