Thailand International Cooperation Agency (TICA), in cooperation with Burapha University, organized an international training course on “Sufficiency Economy Philosophy towards a Sustainable Development” during 12-26 March 2017 in Thailand. Attending the course are participants from Bhutan, Cambodia, Chile, Costa Rica, Egypt, Indonesia, Kazakhstan, Kenya, Montenegro, Nepal, Pakistan, Philippines, Senegal, Sri Lanka, Togo and Thailand. Organized under TICA’s Annual International Training Course or AITC framework, this course aims at bringing together international participants to learn first-hand experience on how the universal values of the Sufficiency Economy Philosophy or SEP, such as moderation, reasonableness, prudence and conservation, are crucial to sustainable development. It is our hope that “SEP” as Thailand’s home-grown development model will inspire participants to apply the concept to all aspects of their respective countries’ sustainable development and will be part of Thailand’s contribution to the global effort in achieving Sustainable Development Goals.
