Thailand’s Annual International Training Course (AITC)
Course Information

Forest-based Eco-tourism Management in Thailand:
Harmonizing Local People and Forests
in the Context of Sustainable Development Goals (SDGs)
(Priority for FEALAC Member Countries)
17 February-13 March 2018
Closing date for application: 5 January 2018

TICA: Thailand International Cooperation Agency
is a national focal point for Thailand’s international
development cooperation. TICA was established in 2004 to
realize Thailand’s aspiration to be a contributor of
development cooperation. Believing that global challenges are
best addressed by international cooperation and global
partnership, today we continue to strengthen our contribution
to achieve global development agenda through various
capacity-building and human resources development
programmes. In response to the recent changes in the global
landscape of development cooperation, especially through
the concept of South-South and Triangular Cooperation, TICA
continues to realign our focuses in order to deliver Thailand’s
commitment to be a relevant partner in global agendas
including the 2030 Agenda for Sustainable Development.

AITC: Annual International Training Course
was initiated in 1991 as a framework in providing short-term
training for developing partners. Today, the AITC remains one
of TICA’s flagship programmes. It offers not only a training
experience, but also a platform in exchanging ideas and
establishing professional network among participants from
across the developing world. Aiming at sharing Thailand’s
best practices and experience to the world, the AITC training
courses focus on development topics of our expertise
currently categorized under five themes namely; “Sufficiency
Economy Philosophy” or SEP, Food Security,
Public Health, Climate Change, and Other topics related to
Sustainable Development Goals (SDGs).

Royal Forest Department
Royal Forest Department, RFD, Ministry of Natural
Resources and Environment (MoNRE) is tasked to
monitor and promote forest conservation in Thailand,
encourage community forest management, coordinate relevant research, and monitor wood
industry. Promoting sustainable ecotourism has
been among the department’s prioritized mission.
Through various projects implementation both at
national and community levels, the department
acquires a number of best practices and lessons
learned in forest-based eco-tourism management
and stands ready to share the experiences with
the world.

AITC Theme: SDGs
This training course falls under the AITC theme –
“Other topics related to Sustainable Development
Goals (SDGs)”. We believed that each SDGs is
designed to address specific challenges that by
nature have no boundaries. Therefore, all goals can
be achieved through cooperation, be it
a government or private, or capacity building or
human resources development.
Course Objectives
This training course aims at sharing Thailand’s experiences in community-based eco-tourism management, with an emphasis to forest-based cases. At the end of this course, participants are expected to;
- Understand concept of community-based eco-tourism management and its contribution to sustainable forest conservation.
- Understand economic, social and environmental implication as well as roles of all stakeholders in forest-based eco-tourism management.
- Be able to formulate relevant plans and policies applicable to the case of their respective countries.

Course Outline
This training course covers various topics in community-based eco-tourism management and techniques for eco-tourism promotion, as well as a number of case studies of forest-based eco-tourism management in Thailand such as;
- Community-based Innovation for Eco-tourism
- Creative Economy and Eco-tourism Innovation
- Ecosystem Rehabilitation for Eco-tourism Management
- Cultural Tourism Innovation
- Community Product Development for Eco-tourism Promotion (OTOP)
- Community-based Eco-tourism Management in Urban Area
- Conservation for Bird Watching Tourism
- Wetland Management for Eco-tourism
- Elephant Conservation for Eco-tourism
- Zoo Management for Eco-tourism
- Wild Animal Management for Eco-tourism
- Marine National Park Management for Eco-tourism
- Mangrove and Seashore Resources Management for Eco-tourism
- Dry land rehabilitation program, and,
- Logistics facilities, garbage and wastewater management for Eco-tourism
